Welcome to the ScandiOne BookDatabase.

The ScandiOne BookDatabase is a web-based application which gives you the possibility to save your entire book-collection on the internet.

This also allows you to share your book titles with anyone you like.

If somebody wants to give you a present, and know you like books, he or she will be able to see if you have it already.

In a company, it will be possible for all co-workers to see all the manuals, reference books, etc. which is in the possession of the company.

Please read this manual carefully, and try out the examples.

If you encounter any problems, please see the FAQ at our website.

If this does not help you, please feel free the write your question to us at: support@scandione.com

We will try to help you as soon as possible.

If you have a ScandiOne-ID, always remember to add your UserName. Password is NOT required, and we strongly recommend you never pass on your password to anyone else.

We hope you will enjoy using our Book Database.

Sincerely/Best regards

ScandiOne

Getting started

	SCANDION
Usemame:	Iodify Personal Data New User Permits General About SOBD
Password:	Save Usemame Automatic Login
	Log In Log Out Remove User
E-mail:	Forgot Password

When you start the application for the first time, you will probably see something like this:

If you have already been using another web-depending application from ScandiOne, you already have an account. Just log in here, and you'll be good.

If not, you'll have to create an account. It's done fast, please follow these steps:

Creating an account

Select the tab "New User":

-	5 SCANDION
Now Username:	rsonal Data New User Permits General About SOBD
Final:	
Password	
Repeat Password:	
Language:	English
	Store

Username:	You can use any username you like, including letters, numbers, spaces, underscores and hyphens. In this manual, we use John Smith as the username.
E-mail:	This gives itself away, doesn't it? However, the E-mail is important, since you will receive an email with your data. Please be sure your email is correct, since this will be the only way we can communicate with you. If for instance you forget your password, we will send it to you on this email. You can create as many accounts as you want, using the same email.
Password:	Yep, this is the password. There are no restrictions. You can use one letter if you want, or twelve. Or twenty-seven.
Repeat Password:	As you are not able to see your password (unless you click the 'eye'), we ask you to type it once more. Just to be sure!
Language:	Which language do you want this application to address you? For the time being, we have only English and Danish. Hopefully we will be able to add more languages.

Let us create an account:

Fill in the fields as the following (Of course, using the user name you want, your email, etc.):

Organize and S	ettings – 🗆 א
Connection Modify Per	sonal Data New User Permits General About SOBD
New Usemame:	John Smith
E-mail:	johnsmith@scandione.com
Password:	·····
Repeat Password:	······
Language:	English
	Store

Please note, that the button _____ is now activated.

The whole application is build in a way, that if you have not supplied sufficient data, you will not be able to do what you intend to do.

Now press the _____ button.

You will see a little pop-up like this:

As it says, your account is created, and an email is sent to you.

The content of this email is the data you have entered.

If you do not receive this email, the email-address you have entered may be wrong. Or our email to you is possible in some sort of filter.

We recommend to contact us if you are sure you have not received the email.

The email will look like this:

Dear John Smith
Thank you for joining ScandiOne BookDatabase.
You have been registered with the following data:
Username: John Smith Password: asdfgh Email: johnsmith@scandione.com
You may start using ScandiOne BookDatabase immediately.
Sincerely / Best regards
ScandiOne

As the email says, you can start using ScandiOne BookDatabase immediately.

If nobody was logged in when you created your account, you are already logged in. But just for the sake, let's go through the login process. Go to the **Connection**-tab, and type your user name and password:

	2	SCANDIONE
Connection	lodify Personal Data New User Permits Gene	eral About SOBD
Usemame:	John Smith	
	Save Usemame P Automatic Log	in
Password:	•••••	Ŷ
	☑ Save Password	
	Log In Log Out (Remove User
E-mail:		
	Forgot Password	
	(Caller January)	

Please note the checkboxes:

Save Username: Check this, if you want the application to remember your user name.

- **Save Password:** Check this, if you want the application to remember your password too. Please <u>do not</u> use this utility, if you are working on a shared PC, since *everybody* will be able to access your account.
- Automatic login: Check this, if you want the application to start up logged into your account. Use of this function is preferred if you are the only user of this application.

As you see, I choose to let the application remember my user name, the password and log me on automatically. These options you can set as you like. If you want to change them later, just check/uncheck the fields, and log in.

(Save username is always a good thing to check. Then you don't have to bother with that.)

www.scandione.com

A saved user can always be removed again using the 'Remove user'-button.

After logging in, you will see this:

ScandiOne BookD	atabase	
Username: John Smith	DataBase: Own Database	3- SCANDIONE
Book Menu Basic Book DE Books Anthologies Adv Book Short Stories Title: Author selection: Author list:	ta aranced Searching Volumes: Volumes: Pages:	Construction of the second sec
Series: Publisher: Category: Book list:	∑ × ∑ × SubTites: □ Count: 0	
Clear	Search Store Modify Delete	Space For RENT www.scandione.com

Please note the two "Commercial"-boxes on the right.

If you are a non-paying member, different commercials will be shown out there. Paying members will not see these.

In this manual we pretend to be a paying member, so you don't have to look at those two boxes whenever we show a screenshot of the application.

Now, we can start adding some data:

Adding Data

Basic bookdata on books in ScandiOne BookDatabase consists of an author (or authors), a publisher, it has a category, and may be a part of a series.

This information should be added first, on the 'Basic Book Data'-tab.

In the following I have put in a small selection of authors, series, publishers and categories.

Authors:

Authors consist of only their name:

ScandiOne Bo	okDatabase					- 0
semame: John Si	nith	DataBase:	Own Database	×.	<u></u>	SCANDIONE
look Menu Basic Bo	ok Data			,		
Author BookSeries	Publisher Category					
Author:	1					
Author list:	Aggerholm, Mads Asimiv, Isaac Bradbury, Ray Evans, Linda Goddard, Robert Green, George Dawes J. Green, Roland					Count: 10
	King, Stephen Lindskold, Jane Weber, David					
	L					

Book Series:

Book series has a name and one or more authors.

To add an author to the series, select the name in the dropdown-list. This is the authors you have already types in in the 'Authors'-tab.

To remove an author from the list, double-click the name and it will disappear again.

semame: John Sn	nith	DataBase:	Own Database	Ξ	SCAND	
ook Meru Basic Boo	sk Data I		h.			
Author Book Series	Publisher Category					
BookSeries:						
Author selection:					X	
Author list:						
Book Series list:	Foundation The Dark Tower				Count:	2

Publisher:

Like the authors, publishers also only appear by name:

ScandiOne Bo	okDatabase	
Usemame: John Sm	ath DataBase: Own Database	& SCANDIONE
Book Menu Basic Boo		
Author Book Series		
Publisher:		
Publisher List:	Baen Books BoD	Count: 11
	Doubleday Gnome Press	
	Grand Central Publishing Grant	
	HarperVoyager Panther	
	Spectra Viking Press	
	Wamer Books	
Clear	L Saweh Store Madk Dalate	
Cuear		

Category:

Categories have, besides their title, a marking whether it is a collection of titles (like a collection of short-stories) or just the main title (like a novel).

If the mark is set, you'll be able to add subtitles to the book. You'll see more about this when we start adding books.

semame: John	Smith	DataBase:	Own Database	Ľ	SCANDION
ook Menu 🛛 Basic B	look Data				
Author Book Serie	es Publisher Categor	у			
Category:	[SubTitles:
Category list:	Biography Novel				Count: 4
	Short Stories				

Now we are all set, so let's continue to the Book Menu:

<u>Books</u>

Now we get to the interesting part: Adding books! Please go to the tab named **Book Menu:**

We'll start out with the great first novel by Mads Aggerholm:

ScandiOne Book	Database	
Usemame: John Smith	DataBase: Own Database	& SCANDIONE
Book Menu Basic Book	Data dvanced Searching	
Book Short Stories	1	
Title:	DeathWorld	Volumes: 1
Author selection: Author list:	Aggerholm, Mads	Pages: 367
Series: Publisher:	BoD I]×
Category: Book list:	Novel	Sub Titles:
Clear	Search Store Modify Delete	

Here we go! The first book in the collection:

ScandiOne Bool	Database	
Usemame: John Smith	DataBase: Own Database	SCANDIONE
Book Menu Basic Book	Data	
Books Arthologies	dvanced Searching	
Book Shot Stores		
Title:		Volumes:
Author selection:		Pages:
Author list:		
Series:		×
Publisher:		× II
Category:		🗙 SubTitles:
Book list:	DeathWorld	Count: 1
Clear	Search Store Modify Delete	

Now, let's add a book in a series. It's the same, actually, but instead of an author we set a series:

ScandiOne Book	Database	- ¤ ×
Usemame: John Smith	DataBase: Own Database 🗵	» SCANDIONE
Book Short Stories	dvanced Searching]	
Title: Author selection: Author list:	The Gunslinger	Volumes: 1 Pages: 224
Series: Publisher:	The Dark Tower	
Category: Book list:	Novel	SubTitles:
Clear	Search Store Modify Delete	

So, now we have two books:

semame: John Smith	DataBase: Own Database	SCANDION
ook Menu Basic Book	Data	
Books Anthologies A	dvanced Searching	
Title:		Volumes:
Author selection:		Pages:
Author list:		
Series:		
Publisher:	L	
Book list:	DeathWorld	Count: 2
	The Gunslinger	

Now, we'll have a look at the category 'Short Stories'. It's marked to have subtitles, since it's a collection of short stories. Please note, that 'Pages' shall not be filled in:

semame: John Smit	DataBase: Own Database	->- SCANDION
ook Menu Basic Book	Data	
Books Anthologies	Advanced Searching	
Book Short Stories	1	
Title:	I, Robot	Volumes: 1
Author selection:		Pages:
Author list:	Asimiv, Isaac	
Series:		X X
Publisher:	Gnome Press	X X
Category:	Short Stories	🗵 🗙 SubTitles: 🗾 🖌
Book list:	DeathWorld The Gunslinger	Count: 2
	2 4 6 C	

After adding it to the list, we go to the **Short Stories** tab:

ScandiOne Boo	Database	
Usemame: John Smi	DataBase: Own Database	
Book Merry Basic Book	Data	
Books Arthologies	dvanced Searching	
Book Short Storie]	
Title:	I, Robot	Beers
Short Story		Pages:
Short Story ist.		Court. 0
Clear	C Search Store Modify] [Delete]

As you see, it is completely blank except for the Title-field which has "I, Robot" in it.

Now, the book "I, Robot" contains nine short stories. The first one is "Robbie", which consists of 27 pages:

ScandiOne Book	Database	_ 🗆 ×

Litle:	Worlds of Honor	Pages'
Author selection:	1	
Author list:		
Short Story list:	Deck Load Strike Gueen's Gambit The Hard Way Home The Stray What Price Dreams?	Count: 5
Clear	Search Store Modify Delete	

And when we go back to the Anthology tab...

...we can see, that the titles have added up to 343 pages:

ScandiOne Book	Database						= = ×
Usemame: John Smith Book Menu Basic Book I Books Anthologies A	Data	DataBase:	Own Data	Dase	<u> </u>	🏷 SCAN	DIONE
Anthology Short Stor	ies						
Title:	Worlds of Honor					Pages:	343
Anthology List:	Worlds of Honor					Count:	1
Clear	Search	Store) (M	odify)	Delete		

I hope you have got the hang of it now, because this is the point where we are going to look at the strongest power of this book database:

The advanced searching!

Advanced Searching

The different tab-pages have searching abilities, but they are limited to their topic: I.E. Searching the Author tab only gives the authors. The **Advanced Searching** tab page let you search for any book and any anthology, or any short story *in* any book or anthology.

ScandiOne Bo	okDatabase				×
Usemame: John Sm	ith	DataBase:	Own Database	<u> </u>	• SCANDIONE
Book Menu Basic Boo Books Anthologies	k Data Advanced Searching				
Title:					Volumes:
Author selection: Author list:				X	Pages:
Caritan					
Publisher:)
Category: Book list:				<u> </u>	SubTitles:
Clear	Seamh				Abbreviations

Most of the search fields speak for themselves: Volumes, Pages, Series, Publisher and Category: The books you'll get is the ones which have data that correspond to what you put in these fields.

Title has a little more to it: The titles you'll get is all titles that contains what you put in the title field. This way, search for 'forundation' will give you 'Foundation', 'Foundation and Empire' and 'Second Foundation':

ScandiOne Boo	kDatabase	= ¤ ×
Username: John Sm Book Menu Basic Book	th DataBase: Own Database 💟 🚴	SCANDIONE
Books Anthologies Title: Author selection: Author list:	Advanced Searching	Volumes:
Series: Publisher: Category: Book list:	Image: Second Foundation Image: Second Foundation (B) Foundation and Empire (B) (B) Second Foundation (B)	SubTitles:
Geer	Search	Abbreviations

The **Authors** is has even more possibilities:

First, if you enter one or more authors in the Author list, you'll get all books which are written by at least these exact authors.

However, do you need to find books from an author whose name contains or start with certain letters, you should type it in the Author filed. An example could be 'ree', which will give you books and short stories written by 'George Dawes Green' and 'Roland J. Green':

semame: John Si	DataBase: Own Database	
ook Menu Basic Bo	sk Data	
Books Anthologies	Advanced Searching	
Title:		Volumes:
Author selection:	ree	Pages:
Author list:		
Series:		<u> </u>
Publisher:		X
Category:		Sub Titles: [
Book list:	(SA) Deck Load Strike	Count:
	(B) Ravens (B) The Caveman's Valentine	
	(B) The Juror	
	(A) Worlds of Honor	

You see the three books by 'George Dawes Green' (marked with a 'B'), a short story by 'Roland J. Green' (marked with a 'SA'), and the anthology where that short story is located (marked with an 'A').

To see an explanation of the abbreviations, press the button to the lower right, named 'Abbreviations':

A search can consist of any of the data fields combined.

To see the details of the result, double-click on a title, and you'll be taken to the tab containing that title, whatever it is an anthology, short story in a book, or the book itself.

Settings and others

Now it's time to take a look at the basics about how this application works:

Right click anywhere on the form:

ername: John Smith	DataBase: Own Database	& SCANDIOR
	ata	
Book Short Stories Title: Author selection: Author list:	Cryanize and Settings Log in Log out Change User Exit	Volumes:
Series: Publisher:	· · · · · · · · · · · · · · · · · · ·	
Category: Book list:	DeathWorld DeathWorld Frestater Foundation Foundation and Empire I, Robot t Pet Sematary Ravens Second Foundation The Caveman's Valentine The Drawing of the Three	X Sub Titles:

The first on the list is Organize and Settings. We'll get back to that. First, let us see the other options here:

mame:	DataBase: Own Database	5 SCANDION
k Menu Basic Book Data looks Anthologies Advanced S Book Short Stories Title: Author selection: Author list:	esrching Corganize and Settings Corganize and Settings Corganize and Settings Corganize and Settings Change User Exit Settings Change User Exit Settings Settings Settings Sett	Im Volumes: Pages:
Series:		⊻ × ⊻ × E × SubTitles: Count:
(Dear) Se	arch Store Modify Delete	

Log in: As the title implies, if no one is logged in, you can log in here. It also presents a list of saved usernames, if you'd like to use one of those.

Please note, that the green ones has the password saved with the user, so clicking on one of them logs in immediately.

The orange ones have not saved the password with them, and you'll have to type it in manually.

Log out and Exit more or less speaks for themselves, so let's go to the Change User-option:

ScandiOne BookD	atabase	+
Usemame: John Smith	DataBase: Own Database	🏃 SCANDIONE
Books Anthologies Adv	anced Searching	
Book Short Stories	Organize and Settings Organize and Settings]
Title: Author selection:	🍐 Log out 🖉 Change User 💦 🙎 John Smith	Volumes:

Clear	be Gunelinoer ' Search Store Modify Delete	

This also presents a list of saved users, where you can see 'John Smith' is greyed out - because he is already logged in right now.

The two other users, Mads Aggerholm (with saved password) and 'Peter Williams' (with no saved password), are the options. Selection of one of those will log 'John Smith' off, and log the selected one in (after typing the password, if we choose Peter Williams).

Now, let's get to the Organize and Settings.

Choosing this option will open this window:

	200	5CANDIONE
Connection 1	Modify Personal Data New User Permits General	About SOBD
Usemame:	John Smith	×
Password:	Save Password	Ŷ
	Log in Log Out Re	move User
E-mail:	Forgot Password	

If it looks familiar, it's probably because it is the first thing you see when you start the application for the first time.

Connection tab: Here you log in, and you can choose to let the app save your username, password, and even let it start up automatically with a certain user logged in. You, for example.

If you have forgot your password, it is also here you can get it back by typing in your email-address and press the 'Forgot password'button.

Modify Personal Data: If you want another username or have other corrections to your ScandiOne-ID, this is where you change these data:

Connection Modify Per	sonal Data New User Permits Ge	SCANDIONE	
Modify Usemame:	John Smith		
Modify e-mail:	johnsmith@scandione.com		
Modify Password:	····· •		
Repeat Password:	•••••	Ŷ	
Language:	English	Ľ	
	Update		

New User: You should already know that one, since you probably made your account here:

Connection Modify Pers	onal Data New User Permits Gener	
New Usemame:		
E-mail:		
Password:		Ŷ
Repeat Password:		Ŷ
Language:	English	[
	Store	

We have already made a description of how and what to do here at page 3, so we'll just move on.

The next tab is the Permits-tab, that requires a little more explanation, so first let's take a look at the tab named General.

General: Here you can adjust some of the basic functionality:

Connection Modify Personal		🍌 SCAND	NONE
	Data New User Permits G	eneral About SOB	ס
Default Language:	English	×	
Remember this position [Capitalise first lette	er	F
Remember last position [Capitalise first lette	ers in author name	P
Always on top [
Start with Windows [
Show password 'eye'	F		

Default Language:	The language you like the app to use, when nobody is logged in.
Remember this position:	When you close the app, the current size and position is remembered for use next time you open it. Next time you open and close the app, it will still remember <i>this</i> size and position, not the new one if you have moved or resized it.
Remember last position:	If you like to move the app around, and always remember where you left it, this is the setting you'll use.
Always on top:	This setting will leave the application on top of every other application you may have running.
Start with Windows:	Makes the app start automatically, when you start your PC.
Show password 'eye':	Show an 'eye'-symbol in the password-fields, so you can see what you are typing in the field, when you press the mouse button while hoovering it.

Now, let's go back one tab to the permits.

Permits: On the first 'sub-tab' you can grant access to other users, so they can see your books from their apps:

Connection Modify	Personal Data	a New Us	ser Permits	<mark>₀</mark> ♀० ≦(General Ab	OUT SOBD
Granted by you	Granted by oth	ners			
Other users, allow	ved to see you	ır database	:		
List:				Cou	nt C
				000	

Let's say you'd like 'Peter Williams' to be able to see your book-collection. You'll type in his name, and he will have access to see your books (and authors, and everything):

Connection Mo	dify Personal Data New User Pe	mits General About SOBD
Granted by you Other users, a	Granted by others	
Usemame:	[
List:	Peter Williams	Count: 1

Please note, that a user you grant access to can only see your stuff, no one can modify or delete anything in your database. Only you can do that.

The next tab is grants other have given to you:

	& SCANDION
onnection Modify Per	onal Data New User Permits General About SOBD
Granted by you Gran	ad by others
Databases you have	ccess to view:
Usemame:	
Databases:	Count: 0
Blacklist:	Count: 0

www.scandione.com

Just for the example, let us log in as 'Peter Williams':

ScandiOne Book	Database – 🗆 🗅
Usemame: Peter Willia	ams DataBase: Own Database 💟 🚴 SCANDIONE
Book Menu Basic Book	Data
Books Anthologies /	Advanced Searching
Book Short Stories	1
Title:	Volumes:
Author selection:	Pages:
Author list:	
Series:	X X
Publisher:	X II
Category:	Sub Titles:
Book list:	Baze Count: 12 Desperation Doctor Sleep It From a Buick 8 It It Wr. Mercedes Rose Madder The Green Mile The Green Mile The Stand The Stand The Tailisman It It
Clear	Search Store Modify Delete

As we can see, Pete is a real Stephen King fan. Please note the 'Database'-field is not disabled. This means, that we can change something in there:

mame: Peter Wil	liams	DataBase:	John Smith Own Database		<u>~</u> 5	CANDION
ok Menu 🛛 Basic Book	Data		Vohn Smith Mads Aggerholr	n 🔓	1	
Books Anthologies	Advanced Searching					
Book Short Storie	S					
Tales	1				Val	humon:
inte:	-				VO	umes.
Author selection:					I Pa	ges:

	I, Robot It	
	Pet Sematary Bayens	
	Second Foundation	
	The Drawing of the Three	
	The Gunstinger	
Clear	Search Store Modify Delete	
]

Now Peter can see all John Smith's books, and all related data.

And if we check out Peter's settings, we can se two users have grantet permission for him to see their databases:

nnection Modi	fy Personal Data New User Permits	SCANDION
Databases you Usemame: Databases:	have access to view: [John Smith Mads Aggerholm	Count: 2

To avoid abuse of this function, it has been necessary to make some kind of blacklist.

Just for the case, it could be possible that Peter Williams does not want to see John Smith's books, and is not able to communicate this to John.

Peter just need to move the permit given by John Smith to his blacklist:

		scandior
onnection Modif	y Personal Data New User Per	mits General About SOBD
Granted by you	Granted by others	
Databases you I	have access to view:	
Usemame:		
Databases:	Mads Aggerholm	Count:
Blacklist:	John Smith	Count:
Blacklist:	John Smith	Count:

The result is that John Smith no longer exists in his Database-dropdown list:

	Rose Madder The Green Mile	
	The Langoliers The Stand	
	The Talisman	
-		

Well, this is almost it. Let us now finish off with the 'About'-tab:

About SOBD

This means: "About ScandiOne Book Database", but this sentence was too darn long to put in the tab.

It is the normal promotion of our company, telling you not to change our product, and a disclaimer saying, that if you lose any money or anything else because of your use of our product it's not our fault.

Well this is it!

Thank you for reading so far, and we hope you will enjoy using this product, and that you will have a great experience.

If you have any questions, please see the FAQ at our website, alternatively send us an email to <u>support@scandione.com</u> about your problem.

Comments and proposals are welcome too. Yes, let us know what you mean.

Sincerely / Best regards

ScandiOne Denmark
